

## Hygienic Covers

The stainless steel hygienic covers are dedicated to use with Tapflo AODD Pumps.

The cover boxes are robust, rigid and can be closed tightly and firmly.

Lined up with a dedicated insulation mat, hygienic covers are a perfect solution reducing operation noise level and insulating pumps from ambient thermal conditions.

### Solutions for demanding applications!

- » Operation in strict noise conditions.
- » Pumping hot or cold liquids at stable temperature.
- » Applications where a plain and easy to clean equipment surface is required.

**ATEX**   
**COMPLIANT**

## Industrial Covers

Industrial covers from Tapflo combine user-friendly design with high quality materials creating a durable solution that will operate for years in almost every application.

The covers are tailor-made to fit a wide range of Tapflo pumps and can be easily mounted without any tool.

**Sound insulation, thermal insulation or even pump heating within a cover. Now all this is available from Tapflo!**

### Sound Insulation

Need to keep your process quiet?

Choose covers from Tapflo equipped with sound insulation mat.

### Thermal Insulation

Need to protect your pump from outer conditions?

Keep the heat inside the pump and insulate it from ambient temperature.

### Pump Heating

Need to maintain stable liquid temperature?

Electrical heating will warm-up your pump.

## Design and materials

### Hygienic Covers | execution suitable for ATEX zones

Components	Material
Outer shell	AISI 304 stainless steel, sandblasted surface
Internal insulation	antistatic polyurethane foam

### Industrial Covers | execution suitable for ATEX zones

Components	Material
Outer shell	durable technical textile, PTFE covered
Internal insulation	fiber glass needle mat

### Industrial Covers | standard execution (non-Ex)

Components	Material
Outer shell	durable technical textile, silicone covered
Internal insulation	fiber glass needle mat
